COURSE OUTLINE:
ExtremeCloud™ IQ - Site Engine – Troubleshooting

ASSOCIATED CERTIFICATIONS
ExtremeCloud IQ - Site Engine - Troubleshooting

COURSE DURATION
2 Days

DELIVERY METHOD
Available as Classroom Instructor-led training and Virtual Instructor-led training.

COURSE OVERVIEW

Students will gain basic troubleshooting understanding and the tools available within ExtremeCloud IQ - Site Engine to troubleshoot network outages to common end-user issues. Students have these concepts reinforced with a hands-on lab experience working with a pre-configured network.

WHO SHOULD ATTEND

This course is designed for individuals responsible for the overall network management using ExtremeCloud IQ - Site Engine, Extreme Analytics, Extreme Policy, and Extreme Control.

MANDATORY PREREQUISITE

To take part and to gain the most benefit from this training, you must possess the full learning credential in ExtremeCloud™ IQ - Site Engine - Installation and Configuration. This requires completion of the training and having successfully passed the related exam.
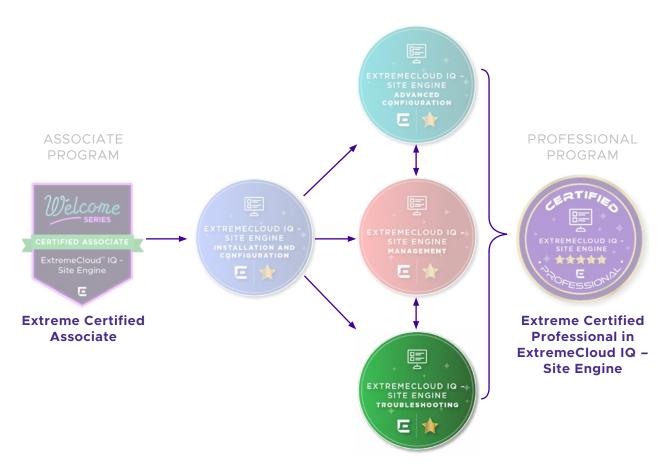

COURSE OBJECTIVES

Upon completion of this course, students will have gained the working knowledge to:

- Identify and isolate network faults
- Identify and isolate end-user issues
- Create custom alarms and reports

AGENDA

- Basic overview of troubleshooting
- Fault management
- Performance management
- Customizing alarms
- Customizing reports
